

Buyer Information

It is important that before bidding for a vehicle you have read and understood BCA's Conditions of Entry and Sale and (where applicable) the variations and additions to the Conditions of Entry and Sale that apply to online sales and the BCA Assured scheme. Copies of these documents are available free of charge from BCA branches and on the BCA website. The selling descriptions applied to vehicles in the auction literature and by the auctioneer are of particular importance. Unless an aspect of a vehicle is either: (a) described in a BCA Assured mechanical report; (b) disclosed as a specified fault; or (c) warranted pursuant to a "no major mechanical faults" description, then that aspect of the vehicle is sold "as seen" as defined in Condition 7 of the Conditions of Entry and Sale. You should also listen carefully for auctioneer's announcements as to any catalogue changes that have been made after the publication of this catalogue.

Margin (VAT Margin Scheme - Second Hand Goods)

Some of our second-hand vehicles are included in a system called the VAT margin scheme. The scheme enables VAT registered buyers to account for VAT only on the difference between the price paid for the vehicle and the price at which it is sold for - the margin. There is no VAT to reclaim on the purchased item, and you will not pay any VAT if you do not make a profit.

Qualifying (VAT Qualifying Gross)

VAT Qualifying Gross signifies a vehicle on which the VAT has never been incurred by the end user. i.e. the VAT on purchase has always been recovered from the tax authorities. These vehicles typically come from leasing or contract hire companies with VAT being shown on the invoice as a separate element of the total selling price. VAT registered buyers purchasing for a qualifying purpose can then recover the VAT.

Commercial (VAT Qualifying Net)

VAT Qualifying Net signifies a vehicle where the price quoted by BCA is exclusive of VAT. (Net of VAT) The final payment the successful buyer will make will include VAT; this will be added to the winning price unless the purchase can be invoiced on a VAT-Free basis.
